

## DIVISION OF PHYSICS

Date: September 30, 2019
From: Division Director, Division of Physics
Subject: Diversity and Conflict-of-Interest Report for the Division of Physics FY 2019 Committee of Visitors
To:
Assistant Director, MPS

The Division of Physics held its COV over the period 23 May - 21 June 2019. The COV comprised 32 members of the research and education community in physics sub-disciplines supported through the Division's programs. These individuals were chosen for their scientific expertise and their breadth of understanding of issues impacting research and education in physics. Collectively, the COV membership represented a variety of perspectives and was balanced across the various sub-disciplines in the field. Inclusiveness in the COV membership is illustrated by the committee's geographic, institutional and demographic diversity, as shown below:

## Category

Member of MPS Advisory Committee
Academic Institutional Type PhD Granting
RUI
Private Organization
Industry
Government
Foreign
Location
Northeast 6
Mid-Atlantic 7
South Atlantic 1
East South Central 0
West South Central 1
East North Central 7
West North Central 2
Pacific 7
International 1
10

## Number

1210516107271

Female ..... 1
No NSE Support in Five Years ..... 13

Male
Minority
22

No NSF Support in Five Years
Female ..... 22

The COV was briefed on issues of Conflict of Interests for the purpose of one of the COV's statutory responsibilities, namely the reading of proposals, reviews, and recommendations and commenting on the handling of actions and the appropriateness of recommendations. Each COV member completed an NSF Conflict of Interests form. In addition, COV members were instructed to reveal to all other COV members in the breakout sessions all such conflicts or appearances of conflicts as described in the NSF Conflicts of Interest Manual 10. Proposals and files were not available to COV members in those cases where the member had a conflict of interest. Furthermore, the COV members were instructed to leave the room during discussion of such actions.

The Division of Physics believes that the efforts of the COV and the COV Chair, Dr. Robert Redwine, Massachusetts Institute of Technology, were outstanding in all respects. The Division staff detected no situations in which conflicts of interest were not handled properly. The Division was pleased with the quality, professionalism, and thoroughness of the COV report and its findings.
